*ReMerge host building dedication to celebrate program expansion*

ok — ReMerge celebrated its program expansion by hosting a building dedication Friday morning.

This is the only program expansion in Oklahoma County.

The grand opening showcased their new 19,000 square foot campus.

ReMerge offers basic needs such as housing, transportation, medical and behavioral health care, as well as domestic violence intervention and counseling.

Officials said this new building will help mothers build healthier foundations for themselves and their families.

Officials with ReMerge said with the new building, they can serve 75 more women at one time, which is a 50 percent increase from their previous capacity to serve 50.

126 women have graduated and more than 317 children have been positively impacted by the program.
